DETAILED ACTION

This is a first office action on the merits of patent application S. N. 10/537,349.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 6-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Concerning claim 6, line 2, the addition of the word "type" extends the scope of the expression so as to render it indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, and 11-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Kowalsky et al. ('008).

Kowalsky discloses a coupling device comprising driving and driven shafts (84, 100), a dog clutch (Col. 1, lines 9-21) with teeth, declutching means, helical torus (Col. 5, lines 32-46) with three channels, rolling elements (160), and a brake (140).

Allowable Subject Matter

Claims 8-10 and 17-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 6-7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Showalter et al. ('351) and Weiland ('475) disclose other coupling devices.
